EXPERIENCE

Oak & Vine Property Management **Dec 2025 - Present**
Property Manager

University of Colorado Boulder **May 2023 - Present**
Computer Science Post-Baccalaureate Student

BluFetch (property investment startup) **June 2024 - Dec 2024**
Data Pipeline Consultant

- Built and maintained a web scraper that traversed various county web sites collecting property data.
- Built and maintained a data pipeline to clean and reformat the scraped data for usage with API's (Zillow & Geolocator) and Salesforce ingestion.
- Dispersed and managed the data via google sheets for a small team. Used AI to write Google Apps Scripts (javascript) that retained end user color-coating of cells through data batch upserts.

Onward Play (staffing firm) **June 2021 - Dec 2022**
Senior Game Recruiter

- Regularly meeting with studio executives and hiring managers to qualify their openings.
- Recruiting for a wide range of positions, including: graphics programmers, gameplay developers, environment/tech/character artists, sound designers, animators, technical directors, etc..
- Top performing recruiter for the Onward Play division, leading in 2022 YTD GM.
- Using complex boolean strings and lists made in Google Sheets to get the best results out of sourcing tools.

Pinnacle Group (staffing firm) **Jan 2017 - Nov 2020**
IT Recruiter / Account Manager

- Established and maintained rapport with diverse levels of management, clients, and staff to ensure recruiting efforts were communicated effectively on a daily basis.
- Gathered surface level understanding of various engineering and business roles to identify and screen candidates.
